# SOFT accessories

Designed by Yonoh Studio

## Feel the touch

---

Designed by the famous creative design studio “Yonoh Studio”, this collection of soft-and velvety touch bathroom accessories arises from a creative process that seeks to awaken the senses.

Inspired by the sense of touch, it aims to highlight the qualities of these everyday objects through their materials.

The basic ingredient of this collection is Solid Surface, a warm material that is soft to the touch, similar to natural stone, with exclusive features: it is an antibacterial material that is easy to clean, resistant and durable.

This collection perfectly combines modernity with warmth and luxury.
