## COLLECTION

---

QUARTZ GEMSTONE

Born of the deepest nature, from igneous rocks crystallising in the depths of volcanic magma, quartz is a stone of extraordinary strength, ranking third in the world in terms of hardness and toughness. It ranks third in the world in terms of hardness and strength.

According to society's mystical beliefs, this precious stone has spiritual benefits related to harmony and balance. It has been used since ancient times by the Egyptians, Phoenicians, Indian shamans, Celts, among others.

This decorative gemstone, combined with the pearl-like details of the base, is totally captivating in both clear and rose.

The understated simplicity of this collection allows it to be combined with other precious gemstones such as Tiger's Eye, Malachite and Lapis Lazuli, each unique and highly captivating.

Exclusive Metropolis serie with
